T-shaped building at ZOSSEN (10 Aug 1957)

- 1. Attached at Appendix "A" is a sketch shewing the layout of the interior of the stem of the T in the T-shaped building at ZOSSEN STAMMLAGER. (%)
- 2. The legend of the markings on the sketch is as follows:
 - I A glass screen made from double paned of glass each measuring 1.80 x 1.80 m. The size of the complete screen is approx 4 m high and 13 m in breadth. Between the double glass there is a white sheet and this creates the impression of a cinema screen.
 - II 2 searchlights so set that they illuminate the screen.
 - III A table with 4 sockets for field telephones.
 - IV 12 lamps so arranged that they illuminate the whole room.
 - V 12 tables each with 2 telephone sockets.
 - VI A large collapsible card-table.
 - VII 2 searchlights so set that they illuminate the screen.
- VIII A table with 4 sockets for field telephones.
- 3. The rooms marked "A" and "B" were originally one room.
- 4. The room marked "B" has been divided by a dividing wall and a false ceiling into 4 rooms (2 on top of each other). These rooms are each approx 2 m in height and all have a view onto the glass screen.
- 5. The walls of the rooms "A" and "B" are all thickly varnished.
